

STATEMENT

Carlos Villar is a visual artist who removes your conscience. In his artistic process he has been investigating in textures, colors and forms from the live sets visual concepts to the most refined creations in the video art world.

His Vj sets are always transgressor and elegant at the same time. In his live visual sets he questions reality and shows up contemporary conflicts, keeping a clear feedback intention between spectator and image.

In his latest projects he is investigating and sharpen the relationship between live set image and the most conceptual and personal creations. They show an aesthetic derived from his large experience in live images that harmonizes with the most complex creations related to the most experimental and conceptual video art forms.

SPANISH VERSION

Carlos Villar es un artista visual agitador de conciencias. En su proceso artístico ha investigado texturas, colores y formas desde la narración de conceptos visuales a través de la imagen en directo, hasta la creación más pulida en el imaginario visual del video arte.

Sus visuales en el mundo del vjing son siempre transgresoras y elegantes. Cuestiona realidades y plantea conflictos en sesiones que se proyectan con una clara intención comunicativa entre el espectador y la imagen.

En sus últimos proyectos depura e investiga las relaciones existentes entre la imagen en directo y la creación más conceptual e íntima. Existe en ellos una estética derivada de la experiencia del campo visual en directo que armoniza con la complejidad de la creación conceptual del video arte más experimental.

Dcandanze is a word game of analogies that plays between decadence, can and dance.

Dcandanze reflects through dance the spirit and the energy of an emblematic space that is full of history and past. Its soul, its "karma" is palpable, and still keeps on in state of emptiness. A space with its own life.

The essence of its energy seems to flot in the space and is so powerful that resists on the step of time to his disappearance.

The space stays even in front of the urbanistic remodelling that suffers at present the former industrial neighborhood of Poblenou, where placed the complex, today transformed into Bussiness Center, infected of macro companies and multinationals located in investors' skyscraper measures.
